

SECTION 1 - IDENTIFICATION

Product identifier/Trade name: SAFEBLEND STRIPPER Dye-free, Fragrance-free

Other means of identification: FCSX

Recommended use: Stripper for floor finishes

Restriction on use: For industrial, institutional and food plants use only.

Initial supplier identifier: Chemotec (PM) Inc.
8820 Place Ray-Lawson
Anjou, Quebec, Canada H1J 1Z2
Phone: (514) 729-6321; 1-800-729-6321

Emergency phone number: (613) 996-6666 (CANUTEC)

SECTION 2 - HAZARDS IDENTIFICATION

2a WHMIS 2015 - GHS (Globally Harmonized System) classification

This product is classified as a skin irritant category 2 and an eye irritant category 2

2b Label elements

Pictogram

Precautionary statement

Wash hands thoroughly after handling. Wear safety glasses. Wear rubber gloves in case of possible contact.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.

IF ON SKIN: Wash with plenty of water for several minutes. Take off contaminated clothing and wash it before reuse. If skin irritation occurs: Get medical advice.

Signal word:

Warning.

Hazard statement

Causes eye irritation. Causes skin irritation.

SECTION 3 - COMPOSITION / INFORMATION ON INGREDIENTS

Ingredients	CAS #	% (weight)	GHS CLASSIFICATION
Monoethanolamine	141-43-5	<3	Oral toxicity, category 4; Dermal toxicity, category 4 Inhalation toxicity, category 4 Eye, skin and respiratory irritation, category 2 (when present at less than 10%)
Ethyleneglycol monophenyl ether or glycol ether EPH or 2-phenoxyethanol	122-99-6	5-10	Oral toxicity, category 4; Eye irritation, category 2
Dipropylene glycol monomethyl ether or glycol ether DPM	34590-94-8	10-30	Not classified
Sodium laurylsulfate or Sodium cocosulfate	151-21-3	1-5	Oral toxicity, category 4; Eye irritation, category 2; Skin irritation, category 2

SECTION 4 - FIRST AID MEASURES

4a Description of first aid measures**Eye contact:**

Immediately rinse with plenty of water for several minutes, keeping eyelids open. If irritation persists seek medical attention.

Skin contact:

Rinse with water. If irritation develops, consult medical personnel.

Inhalation:

Bring person to fresh air. If irritation persists, get medical advice.

Ingestion:

Rinse mouth. Call a doctor if you feel unwell. Never give anything by mouth if the person is unconscious

4b Most important symptoms and effects

Eye: Causes irritation, redness, tears, burning sensation.

Skin: Causes irritation which could be severe if not rinsed rapidly.

Inhalation: Causes irritation of respiratory tract.

Ingestion: Causes irritation, possible burns, headache, abdominal pain, diarrhoea, nausea and vomiting.

4c Immediate medical attention and special treatment needed

Due to irritant properties, swallowing may result in burns/ulceration of mouth, stomach and lower gastrointestinal tract with subsequent stricture. Aspiration of vomitus may cause lung injury. Suggest endotracheal/esophageal control if lavage is done. No specific antidote. Chemical eye burns may require extended irrigation. Obtain prompt consultation, preferably from an ophthalmologist. If burn is present, treat as any thermal burn, after decontamination.

SECTION 5 - FIRE FIGHTING MEASURES

5a Extinguishing media

Suitable extinguishing media:

Water (if possible avoid powerful sprays), foam, dry chemicals, carbon dioxide. Product itself is not flammable.

Unsuitable extinguishing media:

None known.

Specific hazards for product

Hazardous combustion products:

Oxides of carbon, nitrogen and other irritating gases.

Special protective equipment and precautions for firefighters

Special fire-fighting procedures/equipment:

During a fire, irritating smoke and fumes may be generated. A self-contained breathing apparatus is required for fire-fighting personnel to protect themselves from irritating products produced during the combustion. Move containers from fire area if it can be done without risk. A stream of water directed into the product generates a lot of foam.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

6a Personal precautions, protective equipment and emergency procedures

Personal protection:

Avoid contact with eyes and skin. Avoid breathing vapours. Use adequate aeration and ventilation. Wear gloves, waterproof boots, safety glasses and in case of a major spill and if necessary, wear a mask for organic vapours. Floor will be slippery in case of a spill.

6b Methods and materials for containment and cleaning:

Stop the leak. For large spills, pump the product into drums or clean up spills using absorbent material. Resume cleaning by rinsing with water. Caution: floors will be slippery.

6c Environmental precautions:

Do not let large quantities go to the sewers.

SECTION 7 - HANDLING AND STORAGE

7a Precautions for Safe handling:

Avoid contact with eyes and skin. Avoid breathing vapours. Wear gloves, safety glasses and non-slippery footwear.

7b Condition for safe storage:

Store in a sealed container in a well-ventilated place. Do not store with food products. Keep from freezing.

7c Special packaging materials: none.

Avoid contact with acids and strong oxidizers.

SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION

8a Control parameters

	Ontario Time-weighted Average Limit (TWA)	Ontario Short-Term Exposure Limit (STEL)	Notations
Monoethanolamine	3 ppm	6 ppm	
Dipropylene glycol monomethyl ether	100 ppm	150 ppm	Skin

8b Engineering controls:

Good ventilation.

8c Individual protection measures

Respiratory Protection:

Not required under normal applications.

Skin protection and other protective equipment:

Waterproof non-slippery boots. Rubber gloves.

Eye / face protection:

Safety glasses

General hygiene considerations:

KEEP OUT OF REACH OF CHILDREN. Avoid contact with eyes and skin. Avoid breathing vapours. Never eat, drink, or smoke in work areas. Good hygiene is recommended after use of this product.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Appearance and odour:

Clear colourless liquid, characteristic odour.

Odour threshold:

Not available

pH :

11.5-12

Melting point and freezing point:

Approximately 0 °C

Boiling point:

Approximately 100 °C

Flash point:

Greater than 96°C.

Evaporation rate (n-BuAc =1):

Not available

Lower flammable limit (% by volume):

Not available

Upper flammable limit (% by volume):

Not available.

Explosion data - Sensitivity to mechanical impact:

Not sensitive

Explosion data - Sensitivity to static discharge:

Not sensitive

Vapour pressure (mm Hg)

0.5 hPa for the most volatile ingredient

Vapour density:

2.1 for the most volatile ingredient

Specific gravity or density (water = 1 at 4 °C):

1.03 g/cm³@ 20 °C

Solubility in water:

Miscible

Partition coefficient – n-octanol/water:

Not available

Auto-ignition temperature:

Not available

Decomposition temperature

Not available

Viscosity:

<100 cps @ 25 °C

SECTION 10 - STABILITY AND REACTIVITY
--

10a Reactivity:

Not applicable when used as directed.

10b Chemical stability :

Stable at room temperature, in normal handling and storage conditions.

10c Possibility of hazardous reactions:

No polymerisation

10d Conditions to avoid:

Product may decompose at high temperatures.

10e Incompatible materials

Acids, strong oxidizers.

10f Hazardous decomposition products:

With oxidizers: oxides of carbon and nitrogen; with acids: heat, water vapour.

SECTION 11 - TOXICOLOGICAL INFORMATION

Acute toxicity

Eye: Causes irritation, redness, tears, burning sensation.

Skin: Causes irritation which could be severe if not rinsed rapidly.

Inhalation: Causes irritation of respiratory tract.

Ingestion: Causes irritation, possible burns, headache, abdominal pain, diarrhoea, nausea and vomiting.

Carcinogenicity:

No ingredient listed by IARC as a possible carcinogen.

Teratogenicity, mutagenicity, other reproductive effects:

Not available

Skin sensitization:

Ingredients not sensitizing

Respiratory tract sensitization:

Not available

Synergistic materials:

Not available

Other important hazards:

Not available

Toxicological data: The calculated LD₅₀ for this product is greater than 9,000 mg/Kg, oral, rat; our products are not tested on animals.

Ingredient	LD ₅₀ (route, species)	LC ₅₀ # hours (species)
Glycol ether DPM	5,180 mg/kg (oral, rabbit)	LOAEL = 500 ppm
Monoethanolamine	1,089 mg/Kg (oral, rat) 2504 mg/Kg (dermal, rat)	Estimate LC50, 4H vapour, rat >1.48 mg/L
Glycol ether EPH	1,400 mg/kg (oral, rat) 5,000 mg/kg (dermal, rabbit)	Not available
Sodium laurylsulfate	1,200 mg/kg (oral, rat) 1,200 mg/kg (dermal, rabbit)	Not available

For more details, refer to Section 3.

SECTION 12 - ECOLOGICAL INFORMATION
--

12a Ecotoxicity :

TOXICITY (Fish)	Results	Exposure time	Method
Monoethanolamine	Cyprinus carpio (carpe) LC50 349 mg/L	96H	Not available
Glycol ether DPM	Pimephales promelas > 10,000 mg/L	96H	Not available
Glycol ether EPH	Pimephales promelas 344 mg/L	96H	Not available
Sodium laurylsulfate	Macrones vittatus 1,39 mg/L	96H	Not available

TOXICITY (Daphnia)	Results	Exposure time	Method
Monoethanolamine	EC50 = 120 mg/L	24H	Not available
Glycol ether DPM	1,919 mg/L	48H	Not available
Glycol ether EPH	Not available		
Sodium laurylsulfate	EC50 = 1.35 mg/l	24H	EPA-600/4-85/013

TOXICITY (Alga)	Results	Exposure time	Method
Monoethanolamine	Selenastrum capricornutum 2.8 mg/l	72H	Not available
Glycol ether DPM	Selenastrum EC50 > 969 mg/L	3-4 DAYS	Not available
Glycol ether EPH	Desmodesmus subspicatus EC50 >500 mg/L	72H	Not available
Sodium laurylsulfate	Sel. capricornutum EC50= 3.75 mg/l	8 DAYS	Not available

12b Persistence and degradability: Product is readily biodegradable

12c Bioaccumulation potential: Not available

12d Mobility in soil: There is no test data on this product.

12e Other adverse effect No applicable information found

SECTION 13 - DISPOSAL CONSIDERATIONS

Eliminate according to federal, provincial and local regulations.

SECTION 14 - TRANSPORTATION INFORMATION

Transportation of Dangerous Goods (TDG) in Canada :

Not regulated	
UN number	Not applicable
Proper shipping name:	Not applicable
Class:	Not applicable
Identification number:	Not applicable
Packing group:	Not applicable
Special case:	Not applicable

SECTION 15 - REGULATORY INFORMATION

In Canada

WHMIS information:

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR) and this safety data sheet (SDS) contains all the information required by the HPR.

WHMIS Classification:

See section 2a

CEPA information: Ingredients are listed on the DSL inventory.

SECTION 16 - OTHER INFORMATION

Date of latest revision 2017-07-20
