

**SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION**

Product identifier/Trade name: SAFEBLEND SANIBLEND 66 DISINFECTANT & DEODORIZER

Product code/Internal Identification: CCS S66X

Product use/Description: Biodegradable disinfectant and deodorizer

Supplier identifier: Chemotec (PM) Inc.
8820 Place Ray Lawson
Anjou, Québec, Canada H1J 1Z2
Phone: (514) 729-6321; 1-800-729-6321

Manufacturer identifier: Chemotec (PM) Inc.
8820 Place Ray Lawson
Anjou, Québec, Canada H1J 1Z2
Phone: (514) 729-6321; 1-800-729-6321

Emergency phone number: (613) 996-6666 (CANUTEC)

SECTION 2 - COMPOSITION / INFORMATION ON INGREDIENTS

Ingredients	CAS #	% (weight)	ACGIH TLV	OSHA PEL
Alcohol ethoxylate	68131-39-5	5-10	None established	None established
Didecyl dimethyl ammonium chloride	7173-51-5	1-5	None established	None established

SECTION 3 - HAZARDS IDENTIFICATION**Emergency Overview**

Clear yellow liquid with light odour. CAUTION. Concentrated product may irritate eyes and skin.

POTENTIAL HEALTH EFFECTS (for more details, refer to Section 11)

Primary entry route(s): Eye, skin and ingestion.

Eye: May irritate eyes. Severe irritation if not rinsed rapidly.

Skin: Brief exposure may cause irritation. May cause severe irritation if not rinsed rapidly.

Inhalation: No effect expected.

Ingestion: Harmful.

Long-term (chronic) exposure: See Skin effects above

Conditions aggravated by exposure: No applicable information found.

Carcinogenic status: See TOXICOLOGICAL INFORMATION, Section 11.

Additional health hazards: For further information, see TOXICOLOGICAL INFORMATION, Section 11.

Potential environmental effects: See ECOLOGICAL INFORMATION, Section 12.

SECTION 4 - FIRST AID MEASURES

Eye contact:

Immediately rinse with plenty of water for 15 minutes, keeping eyelids open. If irritation persists, repeat flushing and seek medical attention immediately.

Skin contact:

Rinse with water. Remove soiled clothes and wash before wearing. Seek medical attention should an irritation develop.

Inhalation:

Bring the person to fresh air. Seek medical attention if discomfort persists.

Ingestion:

If conscious, give plenty of water. Never give anything by mouth if the person is unconscious. Do not induce vomiting. Seek immediate medical attention.

SECTION 5 - FIRE FIGHTING MEASURES

Fire hazards/conditions of flammability:

Not flammable under normal handling conditions. Closed containers may rupture if exposed to excess heat or flame due to a build-up of internal pressure.

Flash point (Method): Greater than 62°C

Lower flammable limit (% by volume): N/Av

Upper flammable limit (% by volume): N/Av.

Explosion data - Sensitivity to mechanical impact: Probably not sensitive

Explosion data - Sensitivity to static discharge: No applicable information found.

Auto-ignition temperature: N/Av

Suitable extinguishing media:

Foam, dry chemicals, carbon dioxide.

Special fire-fighting procedures/equipment:

During a fire, irritating smoke and fumes may be generated including hydrogen chloride a toxic gas. A self-contained breathing apparatus is required for fire-fighting personnel to protect themselves from irritating products produced during the combustion. Move containers from fire area if it can be done without risk. A stream of water directed into the product generates a lot of foam.

Hazardous combustion products:

Oxides of carbon and nitrogen, ammonia and other irritating gases.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions:

Wear adequate personal protective equipment (See Section 8).

Spill response/Cleanup:

Ventilate closed spaces before entering. Wear personal protective equipment. Stop the leak if you can do so without risk. Pump the product into drums for disposal; or clean up spills using absorbent material and place in waste container for destruction. Resume cleaning by rinsing with water.

Environmental precautions:

Biodegradable.

Prohibited materials: N/Av

Special spill response procedures: N/Av

SECTION 7 - HANDLING AND STORAGE

Safe handling procedures:

Before handling, it is important that engineering controls are operating and that protective equipment requirement and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Avoid inhaling vapours or mists. Avoid contact with skin, eyes and clothing. Keep away from heat and flame. Keep containers closed when not in use. Do not use with incompatible materials such as strong oxidizing agents. Floors will be slippery.

Storage requirements:

Store in a tightly sealed container, in a well ventilated room. Do not store with food products. Keep from freezing.

Special packaging materials: N/Ap

SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION

Engineering controls:

Regular ventilation for normal applications.

Respiratory Protection:

Not required under normal applications. In case of prolonged contact, or if engineering controls and work practices are not effective in controlling exposure to this material, then wear suitable approved respiratory protection. Have appropriate equipment available for use in emergencies such as spills or fire.

Skin protection and other protective equipment:

Use impervious (rubber or neoprene) gloves if contact with hands is possible. Wear waterproof boots if there is possibility of contact with material.

Eye / face protection:

Wear protective chemical safety goggles if there is possibility of contact with material.

General hygiene considerations:

KEEP OUT OF REACH OF CHILDREN. Avoid contact with eyes. Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material.

Permissible exposure levels: For individual ingredient exposure levels, see Section 2.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Physical state, colour and odour: Clear yellow liquid with mild odour.

Odour threshold: N/Av

pH : 6-8

Boiling point: Approximately 100 °C

Melting/freezing point: Approximately 0°C

Vapour pressure: Approximately 20 mm Hg (water)

Solubility in water: Complete.

Coefficient of oil/water distribution: N/Av

Specific gravity or density (water = 1, at 4 °C): 1.06 g/cm³@ 20 °C

Vapour density: Approximately 0.6 (water)

Evaporation rate: Approximately 0.4 (water)

% volatile by volume: Not available

Viscosity: < 100 cps @ 25 °C

SECTION 10 - REACTIVITY AND STABILITY DATA

Stability and reactivity:

Stable at room temperature, in normal handling and storage conditions.

Polymerisation: Hazardous polymerization will not occur.

Conditions to avoid:

Avoid strong oxidizing agent, reducing agents, heat.

Materials to avoid:

Avoid strong oxidizing agents.

Hazardous decomposition products:

Oxidizing materials may result in fire. Carbon monoxide, carbon dioxide, hydrogen chloride, ammonia and other irritating gases.

SECTION 11 - TOXICOLOGICAL INFORMATION

Toxicological data: The calculated LD₅₀ for this product is greater than 5,000 mg/Kg, oral, rat; our products are not tested on animals.

Ingredient	LD ₅₀ (route, species)	LC ₅₀ # hours (species)
Alcohols ethoxylates	>2000 mg/kg (oral, rat)	N/Av
Didecyl dimethyl ammonium chloride	250 mg/kg (oral, rat)	N/Av

For more details, refer to Section 3.

Carcinogenicity: No ingredient listed by IARC, ACGIH, NTP and OSHA as a possible carcinogen.

Teratogenicity, mutagenicity, other reproductive effects: No applicable information found.

Skin sensitization: No applicable information found.

Respiratory tract sensitization: No applicable information found.

Synergistic materials: No applicable information found.

Other important hazards: N/Av

SECTION 12 - ECOLOGICAL INFORMATION

Environmental effects: Product is expected to be readily biodegradable as per OECD 301D.

Important environmental characteristics: Product is expected to be readily biodegradable

Aquatic toxicity: No test data found on this product.

SECTION 13 - WASTE DISPOSAL

Handling and storage conditions for disposal:

Store material for disposal as indicated in Handling and Storage (Section 7).

Methods of disposal:

Dispose according to existing federal, provincial and municipal regulations.

SECTION 14 - TRANSPORTATION INFORMATION

Transportation of Dangerous Goods (TDG) in Canada :

Proper shipping name: Not Regulated
Class: N/Ap
Identification number: N/Ap
Packing group: N/Ap
Special case: N/Ap

SECTION 15 - REGULATORY INFORMATION

In Canada

WHMIS information:

Product is regulated as a disinfectant. Not regulated under WHMIS.

WHMIS Classification:

Not regulated under WHMIS

CEPA information:

Ingredients are listed on the DSL inventory.

Other information:

HMIS: 0 Minimal 1 Slight 2 Moderate 3 Serious 4 Severe
Health Hazard: 2
Fire Hazard: 0
Reactivity: 0
Personal Protection: (See section 8.)
NFPA: 0 Minimal 1 Slight 2 Moderate 3 Serious 4 Severe
Fire Hazard: 0
Reactivity: 0
Specific Hazard: None

SECTION 16 - OTHER INFORMATION
